Location: 23-39-26/A, A.S.Raju Street, Satyanarayana Puram, Vijayawada, Andhra Pradesh-520011

Objective

Motivated and enthusiastic graduate seeking an opportunity to begin my professional career in a reputed organization where I can apply my technical skills, enhance my knowledge, and contribute to the growth of the organization while continuously learning and developing new skills.

Education

- M.Sc Data Science(2025-2027), CGPA: 8.17, GITAM(Deemed to be University)
- B.Sc Electronics(2021-2024), CGPA: 8.3, Nalanda Degree College.
- Board Of Intermediate(2019-2021), Percentage: 82.3%, Narayana Junior College.
- Board of Secondary Education(2018-2019), CGPA: 9.5, Siddhartha E.M School.

Technical Skills

- Programming Skills: Java, Python, SQL
- Web Technologies: HTML, CSS, JavaScript, Flask
- Tools: Google Colab, VS Code, Jupyter Notebook.

Projects

- **Transfer Learning-Based Fake Image Detection:** Technologies used Python, TensorFlow, Keras, Deep Learning.
Developed a deep learning model to classify images as Real or Fake. Implemented Transfer Learning using MobileNetV2 and EfficientNetV2B0. Used DeepDetect-2025 dataset containing real and AI-generated images. Applied image pre-processing and augmentation techniques. Evaluated model performance using Accuracy, Precision, Recall, F1-Score, and Specificity. Achieved an accuracy of approximately 88.53%
- **Reactogram-Instagram Clone Application:** Technologies: React JS, Node JS, Express JS, MongoDB.
Developed an Instagram clone application named Reactogram. Implemented user authentication and image post creation features. Used React JS for the front-end and Node JS with Express JS for the back-end. Integrated MongoDB for storing user and post information. Designed user-friendly interfaces and ensured efficient data retrieval.

Internship

Machine Learning & Deep Learning Using Python, Computer Society of India (CSI), Hyderabad Chapter
Worked on Machine Learning and Deep Learning concepts. Gained hands-on experience in image classification and transfer learning. Developed and documented an AI-based fake image detection project. Learned data preprocessing, model training, and evaluation techniques.

Certifications

- Machine Learning and Deep Learning Using Python – CSI Hyderabad
- Data Science Fundamentals
- Certification on Quantum Fundamentals Program
- The Agnirva AI Program.

Achievements

- Successfully developed a DeepFake Detection project using Transfer Learning.
- Participated in technical seminars and project presentations
- Built applications using Python, Java, and Web Technologies.

Soft Skills

- Problem Solving
- Team Collaboration
- Communication Skills
- Critical Thinking
- Time Management

Languages

- English
- Telugu
- Hindi
